# Preface

All forms and form letters listed in this catalog are available for public inspection and copying or release of a sample copy. However, the forms listed in the Accountable Forms Section will be made available to the public only as facimilies, clearly marked "SPECIMEN". See VAR 526 (I) for schedule of fees.

**FORMAT.** Forms and form letters used by the Veterans Administration have been grouped as follows in this catalog:

**PART I – VETERANS ADMINISTRATION FORMS.** Listed numerically by prefix and form number and includes such information as Depot stock number, title, revision date(s), standard package issue unit, points of usage, and the controlling service department or staff office.

**STANDARD AND STOCK FORMS.** Approved by the General Services Administration, the General Accounting Office or by the agency issuing regulations prescribing their use by other departments or establishments. Such use is recommended for "SF" forms and optioned for "OF" forms.

**OTHER GOVERNMENT AGENCY FORMS.** Approved by other government agencies for their own use and used by the Veterans Administration when required or authorized (listed numerically by approving agency).

**INDEX.** All the above forms are indexed by title and/or subject.

**PART II – VETERANS ADMINISTRATION FORM LETTERS.** Listed numerically by prefix and form number and indicates Depot stock number, title, current edition date, points of usage, and the controlling service, department or staff office. Information and procedure for requisitioning preprinted offset masters is given on page 173 of this catalog.

**OBSOLETE FORMS AND FORM LETTERS** excluding accountable forms, will be disposed of in accordance with instructions contained in VA Manual MP-2 Revised, subchapter E, section 108-27.5107-3 (a), (4). Upon official notification of the obsolescence of an accountable form, stations will *DESTROY stock on hand and submit to the Forms and Publications Depot a report indicating the quantity and serial numbers of forms destroyed. This report will also indicate the name of the official destroying the stock and the name of the individual witnessing such destruction.*

## Field Station Error Codes

If initial edits are not passed, then the applicable station will receive Reject Report 122 listing the error codes, with asterisk(s) appearing below the invalid field(s) (applies to Transactions 777 and 781). These error codes will also appear on the stations Report 123, Shipping Document. The Error Codes on Report 122 and 123 are as follows:

**"CANCELLED, FORM STOCKED BY STATION":**

Occurs when a station orders a particular form which has Symbolic Character "B".

**"CANCELLED, FORM STOCKED BY CONTROLLING SERVICE":**

Occurs when a station orders a particular form which has Symbolic Character "W".

**"CANCELLED, NOT BEING BACKORDERED":**

Occurs when a station orders a particular form which is zero balance at the Depot and the Depot has been instructed not to backorder the form.

**"CANCELLED, OUTSTANDING BACKORDER EXISTS FOR YOUR STATION":**

Occurs when a station has previously ordered a form, which was zero balance at the Depot and a backorder already exists.

**"CANCELLED, FORM BEING REVISED":**

Occurs when a station orders a particular form which is zero balance at the Depot and the form is being revised by the controlling service. The customer is not being backordered, as initial distribution will be made when the revised form is available.

**"CANCELLED, REPRODUCE LOCALLY OR CONTACT VACO (036D)":**

Occurs when a station orders a particular form that should be requested for reproduction thru Publications Service VACO (036D) or the form should be reproduced locally.

**"ACCOUNTABLE FORM, RESUBMIT TRANSACTION":**

If a station orders a form which they believe is not an accountable form, (Transaction 777, cc 20 – S, I, R, or E), but in reality is accountable.

## Requisitioning Instructions

1. The following requisitioning instructions are implemented in accordance with MP-6, PT. XIV, SUP. 7.1.

2. Regularly scheduled requisitions for forms and form letters will be transmitted by VA Field Stations, VA Regional Offices, and their supported activities to Austin DPC through FALCON/LOG 1 or VADATS System (Transaction 777, see MP-6, PT. XIV, SUP. 7.1, Chapter 2). The forms will be ordered by Depot stock number and the quantity for each form.

3. Off schedule requisitions for forms and form letters will be filled by the Forms and Publications Depot on an emergency basis only. In accordance with MP-6, PT. XIV, SUP. 7.1, these requests must be for no more than five (5) line items. An accompanying message (781 TYPE M) is required on emergency and off schedule requisitions to fully justify the requisition (See MP-6, PT. XIV, SUP. 7.1, Chapter 2 and 3 for detailed instruction).

4. Requisitioning schedule is printed in this catalog on page VI. Quarterly requisitions will be transmitted to Austin DPC on the scheduled date. If, for any reason, requisitions cannot be submitted on time the Depot will be promptly notified by the Field Station's Chief of Supply or the PCO of the delay, the reason therefore, and expected submission date. This message can be transmitted on the VADATS or ARS System to the Depot.

5. Telephonic requests from the field station's Publications Control Officer for forms, form letters, and publications are restricted to extreme emergency situations and limited to five (5) line items. Such requests will be processed as special off schedule requisitions. Teletype requests must also comply with the off schedule requisitioning requirements outlined in this catalog.

6. The VA Central Office, other government agencies, and approved organizations will place their order(s) for forms on VAF 3-2290, Forms or Publications Requisition and Shipping Document, listing the form number and quantity. Requisitions from outside organizations will be approved by the controlling Publications Control Officer. Requisitions from the VA Central Office will be channeled to the Depot through the departmental Publications Control Officer. REF. 01-1. These requests will be precoded for keypunching and transmitted by the Depot.

7. All accountable forms must be grouped on a separate request with its unique requisition number (CC31-35 on the Transaction 777 request). See MP-6, SUP. 7.1, Chapter 2. In addition, requests for accountable forms must have an accompanying message (781 TYPE M) for the person to whom delivery is to be made.

8. Standard packaging is provided for most forms listed in this catalog. When requisitioning, check the catalog for the standard package count. Using elements will order quantities of printed forms in multiples of the standard pack quantity provided. Standard package counts are not given for items that are stocked by the controlling service or station.

9. Revision dates are provided for all forms and form letters listed. The current revision date will be listed under the category, "Revision Date", however, the date(s) of any previous edition(s) to be used are shown in parenthesis () immediately following the title. The Depot will first issue any previous edition of stock, until such time that stock is exhausted.

10. Nonrecurring forms are not stocked by the Forms and Publications Depot, and are not listed in this catalog. Quantities issued on initial distribution should be sufficient to complete the usage for which intended. When additional stock is required, it should be requested by letter or VAF 3-7700, Request for Reproduction Services, through the appropriate controlling Central Office Publications Control Officer.

11. The field station director will furnish the Depot Officer (036B), the names, titles, and telephone number (FTS) of their designated PCO and alternates, who have the responsibility of signing all requisitions for printed matter submitted to the Depot. However, the Chief of Supply or the station level PCO will have the sole responsibility for placing telephonic requests. Under no conditions will requests by telephone be accepted from other sources.

12. Other government agency forms that are authorized for use in the Veterans Administration, on pages 94-107, should be requisitioned from the Forms and Publications Depot, unless otherwise indicated. Items required which are not listed herein will be requested by letter through the appropriate Central Office PCO.

13. Out of stock items will be placed in backorder (BKO) status unless otherwise indicated. Once a backorder has been created for a specific line item, future requests from that facility for that item, will be automatically cancelled by the computer. The station will be notified by Report 123, SHIPPING REPORT, that the form has been put on backorder, or that it has been cancelled due to the form being previously backordered for that station. Upon receipt of stock, the Depot will immediately process the outstanding backorder(s).

14. Requests for reproduction services should be submitted on VAF 3-7700 to Publications Service, VACO (036D) in accordance with instructions contained in Printing and Binding Price Schedules No. 2 and/or 8. Do not submit requests for reproduction services to the Forms and Publications Depot. PCO's should determine whether item(s) are stocked by the Depot prior to completion of VAF 3-7700, except in the case of over-printing. Submission of VAF 3-7700 for items stocked by the Depot creates delay in filling the request. This type of request will be returned to the originator for proper preparation and resubmission in accordance with the requisitioning requirements outlined above.

15. Items that are stocked by service will be identified by the symbol "W". The requesting element must then contact the controlling service by letter or VAF 3-7700, to obtain these items. The customer's request for items stocked by service or station will be rejected by the LOG I System.

16. Tabulating cards and marginally punched continuous paper not stocked by the Forms and Publications Depot will be centrally procurred by Publications Service, VACO (036D). See Printing and Binding Price Schedule No. 8 for requisitioning requirements.

17. Test forms are not stocked in the Forms and Publications Depot and are not listed in this catalog. Requests for these and other forms not listed in this catalog should be made by letter through the appropriate Central Office PCO.

18. Requisitions for publications will be submitted through FALCON/LOG 1 or VADATS. For those activities who do not have FALCON/ LOG 1 or VADATS access use a VAF 3-2290 to requisition publications.

19. Transportation costs are an enormous expense to the Veterans Administration. Stations are reminded that adherence to the quarterly requisition schedule will enable the Depot to utilize truckload or carload shipping rates and hold transportation costs to a minimum.

20. This catalog rescinds VA Catalog No. 1, Mar. 1989, which will be salvaged in accordance with VA Manual MP-2 Revised, Sub-chapter E, section 108-27.5107(a), (4).

21. No Forms will be returned to VA Forms and Publications Depot without prior approval.

22. Vet Centers are required to submit requisitions through their assigned servicing facility.

# PART II – Veterans Administration Form Letters

**ORDERING.** The following information is furnished for the guidance of field stations in ordering standardized VA form letters and preprinted offset masters.

Most standardized VA form letters used by field stations are not stocked in the Forms and Publications Depot. Field stations order them by submitting their request for reproduction services (VAF 3-7700A), accompanied by 2 copies of the form letter, to Publications Service (036D), Central Office, in accordance with schedules and instructions set forth in Printing and Binding Price Schedule No. 2. The field station may request the same repetitive fill-in data that is prescribed in MP-1, Part II, Chapter 9, Par. 4a(4)(a) 1, procedure for using these preprinted offset plates and die impressed stencils.

Most standardized VA postal cards and specialty type form letters, and some letters other than these types, are stocked by the Forms and Publications Depot. Field stations order them from the Forms and Publications Depot. Form letters to be requisitioned are so designated by the symbol 'E' and will normally be available in pads.

**PREPRINTED OFFSET MASTERS.** Form Letters printed on OFFSET MASTER are designated by (OM) with the symbol preceding the form letter indicating they are available to field stations having offset equipment. These items should be ordered from the Forms and Publications Depot and will be replenished quarterly due to their limited shelf life (maximum 3 masters per quarter). Where necessary, if the form letter consists of "front and back" pages, the catalog will so indicate, otherwise, no indication will be made if the form letter consists of "front" only. Stations having no offset equipment will order these form letters from (036D) in accordance with Printing and Binding Price Schedule No. 2.
